Unrivaled Membership Benefits

Field Rescue

Global Rescue brings our members to safety, even if they are far from civilization or in a dangerous environment. We have performed thousands of missions worldwide from the mountains of the Himalaya to the streets of Cairo. Our teams of first responders and military special operations veterans deploy unparalleled experience and capability to rescue our members from point of illness or injury, regardless of the environment.

Medical Evacuation

Global Rescue performs medical evacuations worldwide utilizing our deployable teams of critical care paramedics, nurses and physicians. Unlike other providers, Global Rescue transports members to their hospital of choice in their home country. All transport costs are included in the cost of membership.

Security Evacuation

When Global Rescue members are faced with a threat that could result in bodily harm or a government evacuation order is declared, we bring them to safety and transport them home. Our teams of military special operations veterans are immediately available to advise you, deploy to you and extract you in the event of an emergency, natural disaster, or civil unrest. All transport costs are included in the cost of membership.

Medical Advisory Services

When faced with chronic, acute or life threatening illness, Global Rescue members receive immediate access to advice and information from our medical teams of critical care paramedics, nurses and physicians, as well subspecialty second opinions from the Johns Hopkins Department of Emergency Medicine Division of Special Operations. Available 24/7.

I, _____, DO NOT want to purchase a Global Rescue membership for this trip. I understand that an evacuation could cost over \$100,000, is not covered by insurance and may not be available without Global Rescue services. I agree to pay these costs and arrange for my own evacuation if required.
